FOR IMMEDIATE RELEASE -- Stratford, CT (February 2, 2009) – Aurora Products, Inc. today announced a voluntary recall of certain Aurora Natural products in response to the expanded Peanut Corporation of America Roasted Salted and Roasted Unsalted Peanut products. This voluntary recall was initiated because the products listed below contain peanuts which were manufactured by Peanut Corporation of America (PCA). PCA is the focus of an ongoing Salmonella investigation by the United States Food & Drug Administration (FDA).

Salmonella is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis. For more information on Salmonella, please visit the Centers for Disease Control and Prevention's Web site at www.cdc.gov (or call 1-800-232-4636).
